"The law firm shepherding that suit, filed in State Supreme Court in Elmira, N.Y., is **Napoli Bern Ripka**, which recently won a settlement of nearly \$700 million with the City of New York and its contractors on behalf of more than 10,000 workers saying that they developed respiratory illnesses as a result of their rescue and recovery work at ground zero after 9/11. One of the lawyers, Marc J. Bern, said that the firm has cases pending over natural gas drilling operations in Pennsylvania, Colorado, West Virginia and now New York."
